

Session Program

19-23 Aug 2019

3rd International ping on QCD Challenges from pp to AA

August 19-23, 2019, in Lund, Sweden

3rd International ping on QCD Challenges from pp to AA

***Topic 1 - Initial state/stages and how to
differentiate between different models***

Lund university

Friday 23 August

09:00

Topic 1 - Initial state/stages and how to differentiate between different models: In what way does the initial state and stages of a collision imprint itself on the final state observables? And how can we distinguish different models of the stages of evolution in nuclear collisions?

09:30

Poster Session | **Location:** Lund university, Lundmarkssalen | **Conveners:**
Christopher Plumberg, Christian Bierlich
