

Other Outreach Opportunities in Sweden

Ph.D. Student Day

Summer 2026

General

There is a number of outreach opportunities, many at fixed times of the year

Swedish typically the default, but ***not at all a requirement***
(remember we are in Sweden — everybody speaks English, except maybe small kids)

Involvement at **different levels of effort** is possible — and often material can be **reused!**

I compiled a list of those I am aware of — there are quite possibly more

Public & Science Sweden

Vetenskap och allmänhet

VETENSKAP & ALLMÄNHET
Public & Science Sweden

Organises a number of outreach events/activities throughout the year
—> They handle all the logistics/booking etc., you just have to show up

Typical target audience are kids/young adults, but not only

Forskningsfyren

"Science Lighthouse"

New prize for science communication for young researchers, awarded by the Young Academy of Sweden

Mainly focussed on outreach for kids/teenagers

Should ideally be innovative and inclusive

Nominee should have some coupling to Sweden (got their PhD here, currently working here...)

10 000kr

For Discussion

Reasons to engage in outreach (Reasons against?)

What experience do you have?

Dos and don'ts/good practices

Other outreach opportunities you know of?

Did you get new ideas/inspiration today?

Should we keep doing these kind of outreach-oriented days?
